KRKA

Nacionalni park
National Park

Utemeljen s ciljem očuvanja iznimnih prirodnih i kulturno-povijesnih vrijednosti rijeke Krke, Nacionalni park "Krka" je proglašen radi zaštite i očuvanja geomorfoloških, hidroloških i pejzažnih vrijednosti krajobraza, posebice sedrenih slapova koji su njegov temeljni fenomen. Namjena Parka je prvenstveno znanstvena, kulturna, odgojno-obrazovna i rekreativna, a turističke djelatnosti u ulozu su posjećivanja i razgledavanja.

Nacionalni park "Krka" se nalazi u južnoj Hrvatskoj, na središnjem dijelu istočne jadranske obale, na području Šibensko-kninske županije a obuhvaća tok rijeke Krke (2 km nizvodno od Knina do Skradina) i donji tok rijeke Čikole. Područje je proglašeno Nacionalnim parkom 1985. godine, što potvrđuje izuzetnost krške ljepotice Krke, osobitost njezinih prirodnih fenomena i kulturnopovijesnih spomenika.

Founded with the aim of preserving the exceptional natural and cultural-historical features of the Krka River, the Krka National Park is home to the unique travertine waterfalls and other valuable geomorphological and hydrological structures, as well as the landscapes that will leave you breathless.

Situated in southern Croatia, within Šibenik-Knin county, the Krka National Park includes the Krka river and the lower course of the Čikola river. The area was proclaimed the national park in 1985 due to the beauty of the karst river, the distinctiveness of its natural phenomena and its cultural and historical monuments.
